

Clapping for carers: An image taken from a BBC News report shows residents in Park Hall Road, N2, joining the nationwide show of support for the NHS.

Neighbours step out for a moment to applaud the NHS

Residents of Park Hall Road in East Finchley were filmed by BBC News as they came out of their homes to show their appreciation for the work of all NHS staff and carers. A camera crew was in the road at 8pm on Thursday 26 March to capture the lines of neighbours who came into their front gardens to clap and cheer, and the footage was shown across the BBC's news bulletins.

Residents in dozens of other streets in East Finchley did the same, with one video clip on Facebook showing someone living on the High Road raising a glass out of their second-floor window just as an NHS ambulance drove past sounding its horn in acknowledgment.

The nationwide applause certainly was a moving tribute to the hard work and selflessness of everyone in the caring and emergency professions who are in the front line of the fight against the spread of the coronavirus. We thank them all and wish them continued good health.

Pharmacies

Pareesh Shah, who runs CW Andrews on the corner of the High Road and Baronsmere Road, N2, told us that all pharmacists are under huge pressure and asked for the help of customers to ensure their vital service can continue as smoothly as possible.

Most pharmacies do not have the time or the staff to deliver prescriptions so Pareesh's advice is as follows:

1. Anyone wanting to pick up a prescription, please call your pharmacist several days in advance to give them time to get it ready for you.

2. You can arrange for a friend or neighbour to collect a prescription on your behalf. Ring the pharmacist in advance to let them know who will be collecting for you.

3. Anyone with a specified medical condition who received one of the 1.5million letters advising them to self-isolate for 12 weeks, should ask family, friends or neighbours to collect their prescriptions.

4. Order your normal quantity of medication and don't over-order; that will help them keep their stock of drugs at manageable levels.

5. Observe the 'two customers at any one time' rule and keep apart from staff and other customers by at least 2m. Do not enter a pharmacy if you have any of the symptoms of Covid-19 or are in a self-isolation period. Staff need to be protected to keep pharmacies running.

6. Look out for pharmacies adjusting their opening hours to help them catch up with orders and maintain a sustainable service.

Pareesh told us: "This is a massive period of adjustment. People are generally being very good and they are getting used to the new rules and restrictions. If everyone abides by them, pharmacies can continue to provide a good service to their customers."

"Unfortunately, we don't have the staff to be able to deliver individual prescriptions to people's homes. People who can't get out should ask friends or neighbours to pick up prescriptions on their behalf, then phone us to let us know who is collecting for them."
